

SACE International Program

Suggested Textbooks and Resources

Stage 2 2026

The SACE Board of South Australia does not require schools to use specific textbooks and/or student manuals during the teaching of a program. However, a list of suitable textbooks and teaching resources is provided here to assist teachers and students.

Please note, not all the content in each textbook will be relevant for SACE subjects. Teachers should refer to the SACE Subject Outline for content and select relevant material and topics from textbooks which are relevant to SACE subject outlines.

The illustrations below indicate the suitability of textbooks and resources for teachers and/or students -

Guidance report

Metacognition and Self-Regulated Learning

One of the learning requirements of Activating Identities and Futures is for students to develop and apply metacognitive skills. This guidance report from the **Education Endowment Foundation** reviews the best available research to offer teachers and senior leaders practical advice on the most effective strategies for supporting pupils to develop their metacognitive skills and knowledge. The report has recommendations in seven areas and examples of what the strategies might look like in the classroom.

Biology continued

Biology: Levels of Life Textbook

ISBN: 978-0-9577554-4-4

Biology: Levels of Life Australian Curriculum Edition, written by experienced authors Brian LeCornu and Tony Diercks, has an attractive layout and is easy to read. Biological ideas and concepts are communicated clearly and unambiguously.

Features of the textbook include:

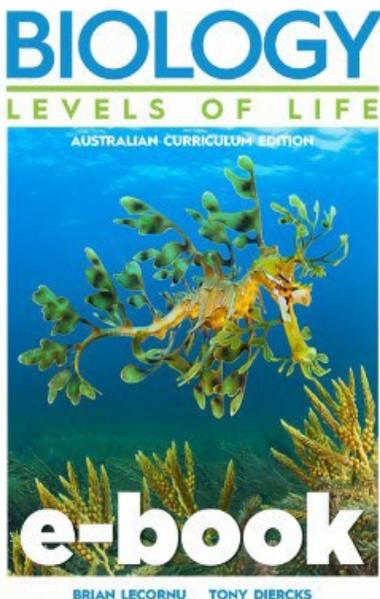

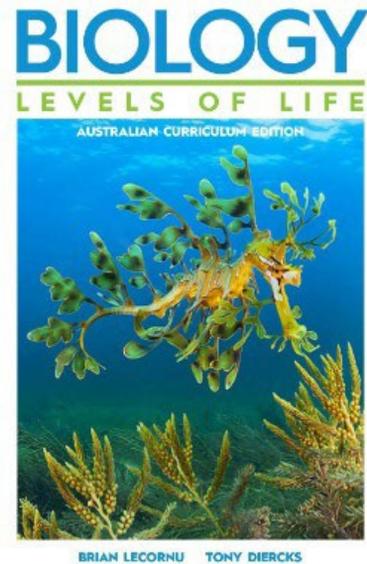

- complimentary 15-month subscription to the e-book is available with every hard copy purchased
- clear and colourful headings
- important terms in bold text boxes that contain interesting additional information
- study questions at the end of each chapter, that enable students to check their understanding
- QR codes and tiny URLs that link quickly and easily to relevant scientific articles, documents, videos, and animations
- a special symbol is used throughout the book to highlight sections that relate to science as a human endeavour (SHE)
- an extensive glossary that is really a biology mini-dictionary
- a comprehensive index
- a compact design, so the book is easy to carry between school and home.

The chapters have been carefully planned and can be taught as standalone units.

[Biology: Levels of Life Textbook \(printed\) | South Australian Science Teachers Association](#)

There is also the **Biology: Levels of Life e-book** available, which has all the features of the printed text and can be downloaded and used offline.

Preview the e-book on the [Briton Books](#) website.

Biology continued

SACE Stage 2 Biology Workbook

ISBN: 978-0-6455814-0-9

Here is a summary of what makes the third editions different to the second editions:

The new editions have expanded text in every chapter. The extra information deepens the reader's knowledge and application by transitioning their understanding from surface to deep.

The third edition of biology has more than 500 new questions including more questions on science as a human endeavour (SHE) and science inquiry skills. The new questions are designed to let students apply their knowledge to new and familiar contexts.

The third editions have MUCH improved artwork which helps simplify concepts while bringing them to life. New topic tests that help students prepare for Skills and Applications Tasks (Tests).

The third edition also links directly to the videos now available here. The second editions do not sync with the videos at all.

Child Studies

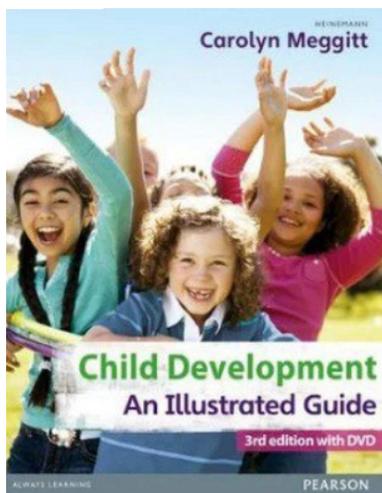

Infants and Children (prenatal through middle Childhood)

Authors: Laura E. Berk and Adena Meyers ISBN: 978-0133936-72-8

A best-selling, chronologically organised child development text, Berk and Meyers' *Infants and Children: Prenatal Through Middle*

Childhood is relied on for its clear, engaging writing style, exceptional multicultural and cross-cultural focus, rich examples, and commitment to presenting the most up-to-date scholarship while also offering students research-based, practical applications that they can relate to.

The authors take an integrated approach to presenting development in the physical, cognitive, emotional, and social domains; emphasise the complex interchanges between heredity and environment; and provide exceptional attention to culture.

Child Development – An Illustrated guide – 3rd Edition

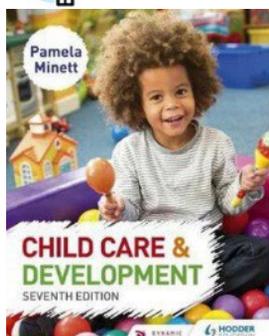

Author: Carolyn Meggitt

Print only or print + DVD editions

This edition is fully updated and re-organised so learners can be sure they have the most up-to-date information. It also includes a FREE DVD providing video clips of children's developmental stages, giving learners the opportunity to observe important areas of child development at first-hand.

ISBN: 978-0435078-80-5

[Child Studies: How to write an effective Investigation - Essentials Education](#)

Chinese (continuers)

Ni Hao 你好 (books 4 & 5)

Advanced Level - Ni Hao 4 is an advanced Chinese language course for senior school students. A different approach is used for this level. There are more opportunities for listening to unrehearsed text and for discussions in Chinese. Topics for this level reflect the diversity of senior students' lives: from school-based interests and activities to personal/social concerns about health, adolescence, part-time work, relationships, customs, technology and environmental issues.

There are four lessons in this book. Each lesson has three sub-topics and each sub-topic consists of six sections and three subsections.

Higher Advanced level – Ni Hao 5

Ni Hao 5 is a further advanced level to Ni Hao 4 and is the fifth and final stage in the series. It is suited to senior high school students in grade

12. Students will be able to discuss their future plans, decision making, lifestyle choices as well as personal opinions on popular Chinese culture. They also learn to introduce their home-town or country, including its brief historical and geographical features.

In this level Pinyin is no longer used on new characters. Students are encouraged to use their knowledge of the Chinese language to decipher words and meanings to prepare them for reading real life material.

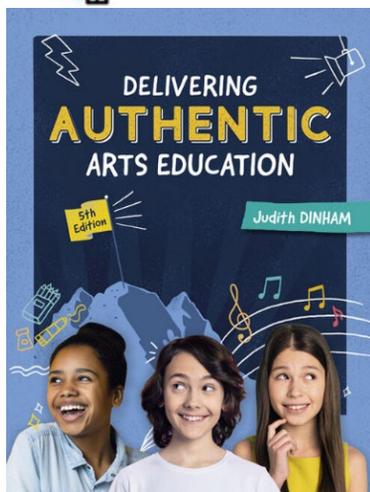

Ni Hao 5 includes wider range of vocabulary, phrases and popular expressions to allow students to hold descriptive and detailed conversations, express their opinions on topical issues and communicate articulately in a range of common situations.

There are four lessons in Ni Hao 5 and each lesson contains three sub-topics. Each sub-topic begins with a series of illustrations that reflect the main text on the following page. They are ideal for listening practices. The questions in the Listen and discuss section can be used to check understanding. Most of the new words, expressions and sentence patterns are introduced in the main text in the form of a dialogue, a narration or a special purpose form.

Creative Arts

Note - there are no specific student texts for Creative Arts because of the range of possible options available to students. The texts below may be useful teacher resources.

Delivering Authentic Arts Education by Judith Dinham

ISBN: 978-0-170368-82-7

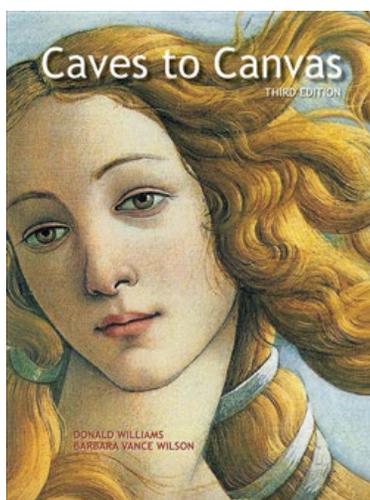

This market-leading text helps you develop the confidence, understanding and skills you need to teach arts, including dance,

drama, media arts, music and visual arts. With a perfect balance between theory and practice, Delivering Authentic Arts Education outlines the key learning area of arts education and its importance in the curriculum. It also conveys creative activity and expression within a cultural context.

The text tells you how to recognise and build on your existing artistic abilities and teaching skills, how to encourage children's creativity and how to lead arts appreciation experiences. It also includes information on planning and assessment. New, print versions of this textbook come with bonus online study tools on the CourseMate Express platform.

[Delivering Authentic Arts Education, 5th Edition - 9780170459020 - Australia](https://www.fivesenseseducation.com.au/caves-to-canvas-9780170459020)

Caves to Canvas By Donald Williams, Barbara Wilson

ISBN: 978-0-170218-42-9

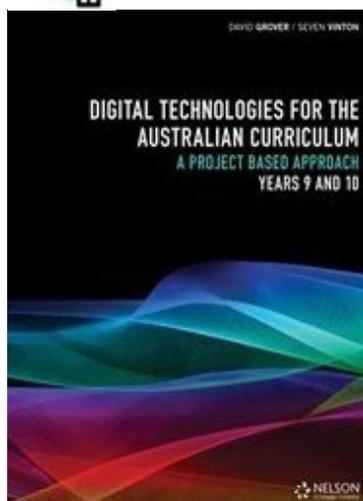

Caves to Canvas is highly valued for its analysis of artists and artwork, from prehistoric times to the present day. Diary extracts, letters,

reviews and media reports are used to introduce your students to the world of the artist, and help them to examine historical, social, political and religious influences on artwork. Extensively revised and updated, the third edition includes significant material on contemporary artists and is supported by a student CD-ROM.

<https://www.fivesenseseducation.com.au/caves-to-canvas-9780170218429>

Digital Technologies

Note - there are no specific student texts for Digital Technologies due to the diverse range of topics and software that students may choose to undertake as part of their course. The texts listed below may assist teachers as a beginning point for ideas and getting students started.

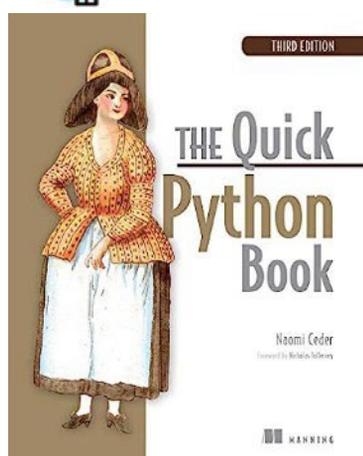

Digital Technologies for the Australian Curriculum

ISBN: 978-0-170411-82-0

Digital Technologies for the Australian Curriculum is a full-colour, write-in workbook written for the Australian Curriculum: Digital Technologies. It

incorporates a project-based approach that allows teachers to engage students with in-class and at-home activities.

The Quick Python Book by Naomi Ceder

ISBN-13: 978-1617294037

Manning Publications

The Quick Python Book, Third Edition, is a clear, concise introduction to Python 3, aimed at programmers new to Python. This updated edition includes all the changes in Python 3, itself a significant shift from earlier versions of Python. The book begins with basic but useful programs that teach the core features of syntax, control flow, and data structures. It then moves to larger applications involving code management, object-oriented programming, web development, and converting code from earlier versions of Python.

Naomi Ceder is chair of the Python Software Foundation. She has been learning, using, and teaching Python since 2001.

Mathematics for Australia 12 – General Mathematics has been designed and written for the Australian Curriculum. It addresses the content outlined in the SACE Stage 2 General Mathematics subject outline.

The textbook and interactive software provide an engaging and structured package, allowing students to explore and develop their confidence in mathematics. The material is presented in a clear, easy-to-follow style, while effort has been made to contextualise questions so that students can relate concepts to everyday use.

Each chapter begins with an Opening Problem, offering an insight into the application of the mathematics that will be studied in the chapter. Important information and key notes are highlighted, while worked examples provide step-by-step instructions with concise and relevant explanations. Discussions, Activities, Investigations, Puzzles, and Research exercises are used throughout the chapters to develop understanding, problem solving, and reasoning, within an interactive environment. Extensive Review Sets are located at the end of each chapter.

MASA Year 12 General Mathematics Study and Revision Guide

This publication was updated on August 1, 2025.

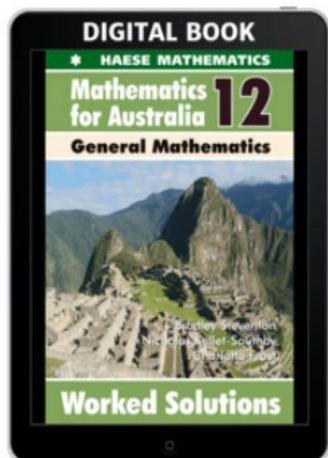

New questions were added to address areas of concern raised in the SACE subject assessment advice, plus a map of which questions belong to which syllabus subtopics.

This Revision Guide provides essential preparation for the final SACE assessments, covering the topics listed in the SACE General Mathematics subject outline. The revision guides contain questions listed by topic, trial examinations based on past General Mathematics papers, and the SACE Examination Papers from 2017 to 2024. Fully worked solutions to all questions are included.

Online ISBN: 978-1-922416-56-8 (9781922416568)

General Mathematics

Mathematics for Australia 12 - General Mathematics worked solutions digital only

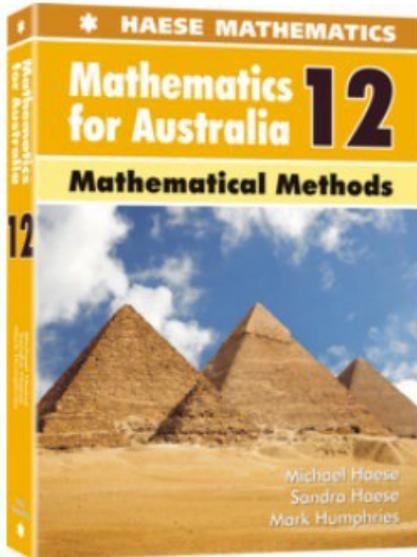

Online ISBN: 978-1-925489-27-9

This book gives fully worked solutions for every question (discussions, investigations and projects excepted) in each chapter of the textbook Mathematics for Australia 12 General Mathematics. Where applicable, each worked solution is modelled on the relevant worked example in the textbook. Correct answers can sometimes be obtained by different methods.

Mathematical Methods

Mathematics for Australia 12 - Mathematical Methods

ISBN: 978-1-925489-02-6

Online ISBN: 978-1-925489-06-4

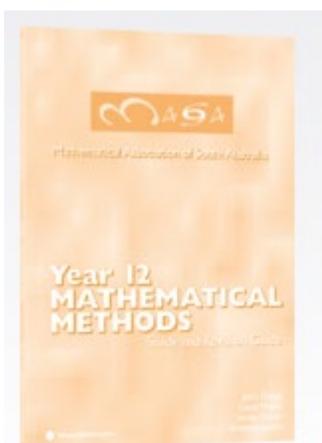

Mathematics for Australia 12 – Mathematical Methods has been designed and written for the Australian Curriculum. It addresses the content outlined in the ACARA Mathematical Methods Curriculum Units 3 and 4, as well as the SACE Stage 2 Mathematical Methods subject outline.

The textbook and interactive software provide an engaging and structured package, allowing students to explore and develop their confidence in mathematics. The material is presented in a clear, easy-to-follow style, free from unnecessary distractions, while effort has been made to contextualise questions so that students can relate concepts to everyday use.

Each chapter begins with an Opening Problem, offering an insight into the application of the mathematics that will be studied in the chapter. Important information and key notes are highlighted, while worked examples provide step-by-step instructions with concise and relevant explanations. Discussions, Activities, Investigations, Puzzles, and Research exercises are used throughout the chapters to develop understanding, problem solving, and reasoning, within an interactive environment. Extensive Review Sets are located at the end of each chapter.

The chapters in this book have been ordered to provide a logical path for students studying Specialist Mathematics in conjunction with Mathematical Methods.

MASA Stage 2 Mathematical Methods Teaching Resource

[Stage 2 Mathematical Methods Teaching Resource](#)

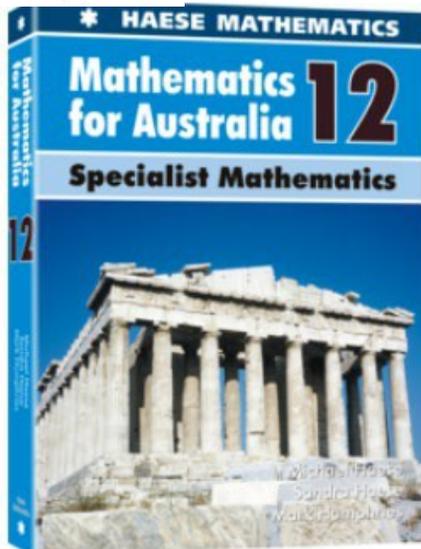

This resource is a set of assessment style *questions and worked solutions*. The resource contains over 100 pages of questions covering topics such as:

- Calculus
- Discrete Random Variables
- Continuous Random Variables
- Sampling and Confidence Intervals.

The questions are provided in a digital word document that is well formatted and easy to use. You can insert them into assessments, practice exams or revision tasks as you wish. The worked solutions are also included to help mark and provide feedback to students.

This resource is aligned with the Stage 2 SACE Mathematical Methods curriculum and will help to assess the level of difficulty and the standards of achievement for these units.

Specialist Mathematics

Mathematics for Australia 12 - Specialist Mathematics

ISBN: 978-1-925489-03-3

Online ISBN: 978-1-925489-07-1

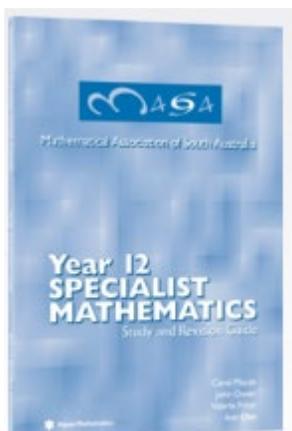

Mathematics for Australia 12 – Specialist Mathematics has been designed and written for the Australian Curriculum. It addresses the content outlined in the ACARA Specialist Mathematics Curriculum Units 3 and 4, as well as the SACE Stage 2 Specialist Mathematics subject outline.

Specialist Mathematics is the most rigorous course in the series, and we are aware that some of the topics will not have been previously taught by many teachers. We are therefore committed to providing clear explanations for this work to our usual high standard. We also provide guidance on how best to progress through this course in conjunction with Mathematical Methods.

The textbook and interactive software provide an engaging and structured package, allowing students to explore and develop their confidence in mathematics.

Each chapter begins with an Opening Problem, offering an insight into the application of the mathematics that will be studied in the chapter. Important information and key notes are highlighted, while worked examples provide step-by-step instructions with concise and relevant explanations.

Nutrition

SACE 2 YEAR 12 – Nutrition 8th Edition

Authors: Vicki Dent & Anastasia Toumpas Pages: 536

ISBN: 978-1-925505-51-1

The Essentials Workbooks are designed to support the teaching of SACE Stage 1 and 2 subjects in South Australia. The SACE 1 Nutrition Workbook is designed to meet the Subject Outline requirements of the SACE Stage 1 Nutrition course.

The Eighth Edition is a completely new book written for the updated SACE 2 Subject Outline for Nutrition in 2023. The author team, Vicki Dent and Anastasia Toumpas have revised and updated the SACE2 Nutrition Workbook to incorporate the latest SACE Subject Outline changes for 2024, along with updated core knowledge, questions, and Topic Tests. An essential resource for all SACE Stage 2 Nutrition students.

The SACE 2 Nutrition Workbook 8th Edition also includes complimentary digital platform access.

[SACE 2 Nutrition Workbook – 8th Edition – Essentials Education](#)

2026 Nutrition Study Guide

ISBN: 978-0-6459771-6-5

NB: This is a pre-order item, and it is expected to be delivered to SASTA in May / June 2025.

A range of questions with worked solutions for each topic of the Subject Outline.

Science Inquiry Skills & Science as a Human Endeavour chapters have been reworked allowing students to successfully prepare for both assessment types.

Additional SHE exam-style questions have been added to allow for greater test and exam preparation.

The inclusion of the 2022 SASTA Trial Examination and worked answers further supports students in their exam preparation.

Physical Education

SACE 2 YEAR 12 – Physical Education 6th Edition

Authors: Neil McNaughton

Andrew Wilson

ISBN: 978-1-925505-68-9

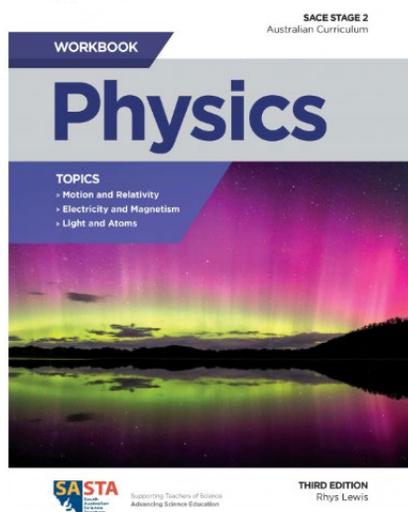

The Essentials Workbooks are designed to support the teaching of SACE Stage 1 and 2 subjects in South Australia. The sixth edition of Essentials Education's Physical Education Workbook will incorporate changes to the SACE Stage 2 curriculum.

Written by Neil McNaughton and Andrew Wilson, authors of the popular fourth and fifth editions of this title. It features all-new illustrations, questions, and core theory to reflect the latest changes in the SACE Subject Outline. An essential resource for students and teachers undertaking SACE 2 Physical Education.

The SACE 2 Physical Education Workbook 6th Edition also includes complimentary digital platform access.

[SACE 2 Physical Education Workbook – 6th Edition – Essentials Education](#)

Physics

SACE Stage 2 Physics workbook - 3rd Ed. Revised

ISBN: 978-0-9808605-5-9

The Stage 2 Physics Workbook revised 3rd Edition has been completely reviewed and improved with any needed corrections made.

To make sure that this edition is completely compatible with the second edition of the workbook, the page numbers and section headers have all been kept the same, hence the table of contents is identical for both editions.

Here is a summary of what makes the third editions different to the second editions:

The new editions have expanded text in every chapter. The extra information deepens the reader's knowledge and application by transitioning their understanding from surface to deep.

The third editions all have hundreds of new questions (and solutions) not seen in the second edition. The new questions are designed to let students apply their knowledge to new and familiar contexts.

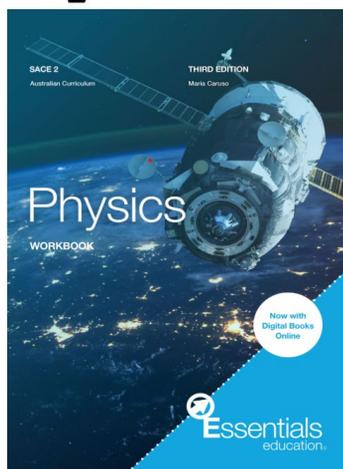

The third editions have MUCH improved artwork which helps simplify concepts while bringing them to life.

The third editions have new topic tests that help students prepare for Skills and Applications Tasks (Tests).

The third editions also link directly to the videos now available [here](#).

Psychology

SACE 2 YEAR 12 - Psychology 1st Edition

Authors: Kirsty Gebert, Deb Green

ISBN: 978-1-925505-43-6

Pages: 518

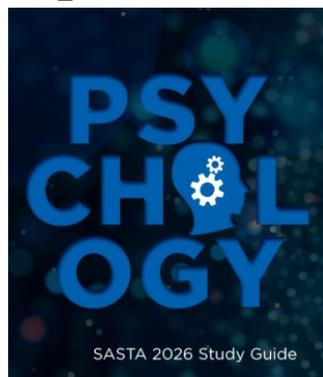

The Essentials Workbooks are designed to support the teaching of SACE Stage 1 and 2 subjects in South Australia. The SACE 2 Psychology Workbook is designed to meet the new Subject Outline requirements of the SACE Stage 2 Psychology course for 2022.

Developed to align with the new SACE 2 Psychology Subject Outline for 2022, this full-colour workbook brings together the conceptual theory with questions, student activities, links to digital resources, further reading and video explanations into one. Written by highly experienced SACE teachers, this new resource also features a diverse range of student activities, including quizzes, word searches and tasks that build upon and extend on SIS skills in each topic.

Included are sample Investigation tasks for Science as Human Endeavour and Deconstruct and Design tasks as well as ideas for School Assessed Tasks throughout each topic.

The SACE 2 Psychology Workbook 1st Edition also includes complimentary digital platform access.

Visual Arts

Note - there are no specific set student texts for this subject. This is due to the diverse nature of topic areas students may choose to undertake as part of the course. The texts listed below may be useful teacher references.

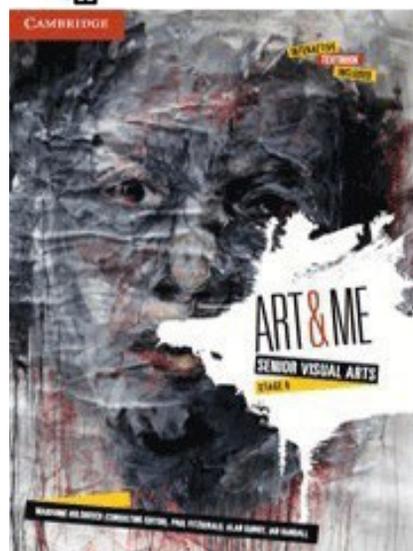

Artwise Contemporary – Visual Arts 10 – 12

ISBN: 978-0-731402-24-3

Artwise focuses on the current work of Australian and international artists at the forefront of contemporary art in all its exciting and

diverse forms. The artist case studies in Artwise Contemporary are carefully chosen and presented.

<https://www.jacaranda.com.au/shop/?SingleProduct=9781742163512>

Art & Me: Cambridge Senior Visual Arts Stage 6 (Print & Digital)

Authors: Marianne Hulsbosch (Consulting Editor) / Paul FitzGerald / Alan Guihot / Ian Randall

ISBN: 9781108717069

Art and Me will inspire Stage 6 Visual Arts students with its stunning design, new topics that engage with contemporary art trends, and innovative interactive digital resources that bring the study of art to life. Exciting new topics covering street art, body representation and restitution in art provide fresh options to focus on new artists, artworks and trends. Popular topics draw on new Indigenous, local and international artists, and contemporary art trends. Innovative interactive digital resources including the Interactive Textbook and the App, integrate multimedia artworks and art forms to bring the study of art to life. Extensive exam preparation support includes advice on exam assessment expectations, practice in using case studies to demonstrate knowledge and understanding of the syllabus concepts, and revision summaries at the end of every chapter.
