

What is a vision statement?

The vision statement should be a clear and inspiring description of what the subject aims to achieve in the future. It's like a guiding star—defining aspirations and setting a long-term direction. Think of it as answering the question: "Where do we want to go?" It's meant to be ambitious, motivating, and forward-thinking.

Guiding criteria:

- Makes clear what is unique to the subject
- Reflects the key drivers in the context of that subject
- Is focussed on the essence of the subject
- Future focussed

Vision statement

Child Studies empowers students with a deep understanding of the developmental needs of children through opportunities to explore areas of personal interest. With a blend of theory and practical experiences, students will develop their understanding of the impact of childhood relationships and the influences that shape child development.

By integrating contemporary research, inclusivity and real-world applications, we aim to prepare students to make meaningful contributions to the wellbeing of children, families, and communities.

NB: as Subject Renewal Groups (SRGs) progress through the Subject Renewal process, plans and documents will be further refined and updated.
