

What is a vision statement?

The vision statement should be a clear and inspiring description of what the subject aims to achieve in the future. It's like a guiding star—defining aspirations and setting a long-term direction. Think of it as answering the question: "Where do we want to go?" It's meant to be ambitious, motivating, and forward-thinking.

Guiding criteria:

- Makes clear what is unique to the subject
- Reflects the key drivers in the context of that subject
- Is focussed on the essence of the subject
- Future focussed

Vision statement

Through learning additional languages, students develop a range of capabilities to make, share, and mediate meaning across languages and cultures. They explore the dynamic real-world relationships between language, culture and identity, fostering empathy, open-mindedness and respect for diversity. In doing so, students grow as informed, responsible and effective global citizens.

Language Continuers will cultivate curiosity and purpose in students as intercultural language learners and users. It will do this by valuing how students transfer what they know and what they can do into authentic, meaningful contexts that are relevant to them, and by fostering a desire for lifelong learning.

NB: as Subject Renewal Groups (SRGs) progress through the Subject Renewal process, plans and documents will be further refined and updated.
