

What is a vision statement?

The vision statement should be a clear and inspiring description of what the subject aims to achieve in the future. It's like a guiding star—defining aspirations and setting a long-term direction. Think of it as answering the question: "Where do we want to go?" It's meant to be ambitious, motivating, and forward-thinking.

Guiding criteria:

- Makes clear what is unique to the subject
- Reflects the key drivers in the context of that subject
- Is focussed on the essence of the subject
- Future focussed

Vision statement

Agriculture empowers students to shape the future of food and fibre production through hands-on, real-world learning. Unique in its connection to industry, community and environment, Agriculture develops capable reflective thinkers who understand the complexity of sustainable systems and the challenges of production. Through student-driven inquiry and critical reflection, Agriculture nurtures ethically minded advocates who can explore and advance innovative agricultural practices in a dynamic world.

NB: as Subject Renewal Groups (SRGs) progress through the Subject Renewal process, plans and documents will be further refined and updated.
