

# Research Project RESEARCH PROCESSES

## What is meant by 'research'?

For the Research Project, the term 'research' means broadly a search for knowledge, skills, and understanding.

This research may include practical or technical investigations, formal research, or exploratory enquiries. There are many different approaches to research and a wide range of terminology amongst researchers; however, a research framework specific to the Research Project is identified in the Research Project subject outline.

## The research framework for the Research Project

**PART 1**

Planning  
the Research

**PART 2**

Developing  
the Research

**PART 3**

Producing  
the Research  
Outcome

**PART 4**

Evaluation  
or review
