

## Stage 2 Music Explorations – Subject adjustments 2024

The following adjustments available in 2023 will be continued in 2024:

Students provide evidence of their learning through **four or five** assessments, including the external assessment component.

Students complete:

- **Two or** three musical literacy tasks
- One portfolio of explorations
- One creative connections task

Where a 'live audience' is referred to in the assessment types, replace with '**an audience such as a live or online audience**'.

Teachers must use their judgement in the design of the suite of assessments to suit their cohort.

For this subject, assessments must include:

for Assessment Type 1: Musical Literacy

- students must undertake one 'Composition' task
- the other one or two tasks may be comparison/analysis/critique tasks.

for Assessment Type 2: Explorations, time limits have been adjusted:

- The set of short performances should be presented to a live **or online** audience. All performances must be recorded, and the set of performances should be between 6 and 10 minutes.
- A set of compositions should be between 3 and 6 minutes.
- A crafted musical instrument should demonstrate playability and range of expression, in 2 to 4 minutes.

for Assessment Type 3: Creative Connections, time limits have been adjusted:

- A creative work that is a performance should be between 4 to 8 minutes.
- A creative work that is a composition or arrangement should be between 2½ to 4 minutes.

### Notes

Recognising that performance is fundamental if students are to demonstrate their learning in Music Explorations, changes to the subject outline are designed to give more flexibility to teachers so students can provide evidence of their learning even if the traditional performance is not possible.

## **Using the flexibilities within the SACE**

Teachers are encouraged to utilise the flexibilities of the SACE to support their students to demonstrate their learning. For example, consideration could be given to internal school deadlines, variety in the mode and format of tasks, and variation in the number of specific features assessed within each school assessment task. The set of assessments, as a whole, must give students opportunities to demonstrate each of the specific features by the completion of study of the subject.

Teachers are encouraged to review their learning and assessment plans (LAPs) and consider amending tasks to be manageable in size and scope. For example, it may be more manageable for students to provide evidence of their learning through a discussion with the teacher or a small group, or produce a video/audio recording or blog rather than a written response.

Teachers are encouraged to take a broad interpretation of terms such as 'collaboration', 'community', and 'audience' recognising the validity of online and/or digital elements.

Where appropriate, the LAP can be designed to include a combination of assessments that meet the minimum number of assessments required for the subject. Word counts and time limits are specified as maxima only and teachers have the flexibility to design tasks with lower word or time limits, while honouring the learning intent and maintaining the cognitive demand of the subject.

Students can demonstrate evidence of their learning to the highest performance standard through tasks that use lower word or time limits than the specified maximums within this subject.

## **Application of subject adjustments – learning and assessment plan (LAP) and moderation requirements.**

Teachers are to apply the same assessment adjustment(s) consistently to all students within the cohort. This includes the number of tasks and assessment conditions. However, these adjustments do not override the opportunity to apply special provisions for individual students if required in line with the Special Provisions in Curriculum and Assessment Policy.

As the LAP informs the assessment of students across the year, where a variation is made, the changes should be reflected in the addendum section of the LAP. Schools are required to keep accurate records of any adjustments.

When uploading school assessment materials via Schools Online for Stage 2 moderation, please ensure that you submit the LAP (with addendum) against which your students were assessed.
